

HOW WE CAN HELP AFTER RELEASE

If a former inmate requires assistance with basic needs after release, they are encouraged to contact Reintegration Services. Monday through Friday from 8 a.m. to 5 p.m.

CHECK US OUT ONLINE

A Collier County Reentry Resource Guide is available to help the members of our community. In the guide, information is listed for housing, substance use recovery, healthcare, income support and benefits, food and clothing, transportation and other resources.

We've also teamed up with Wounded Warriors of Collier County to create a Veteran Resource Guide for those who need help finding veteran services.

These resource guides are updated annually to help the members of our community meet their needs. Check us out online at www.colliersheriff.org/reentry

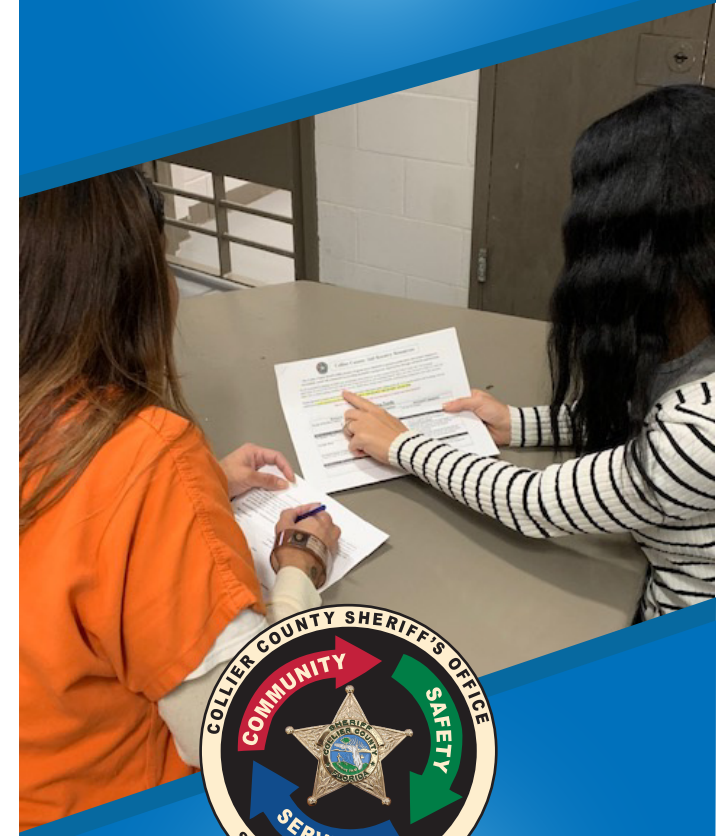

OUR COMMUNITY PARTNERS

The Collier County Jail values our community partners. Each one of them provides invaluable resources to inmates and helps them succeed once they have been released.

Some of our partners include:

- St. Matthew's House
- Shelter for Abused Women & Children
- Collier County Public Schools Adult Education
- Children's Advocacy Center
- Golisano Children's Hospital
- David Lawrence Center
- Wounded Warriors of Collier County
- CareerSource Southwest Florida
- GoodWill Industries
- Humane Society Naples
- Collier County Health Department
- Healthy Start
- Salvation Army
- Better Together
- Florida Department of Highway Safety and Motor Vehicles

REINTEGRATION SERVICES

Reintegration Specialists meet with inmates one-on-one to ask them a series of questions to help assess their needs properly. During this interaction, staff get a detailed look at what the inmate's basic needs are, and are able to assist them in meeting those needs by linking them with community partners. This ensures they have the best chance of success after release. Inmates can also be referred to some of the Inmate Programs that might fit their immediate needs while in jail. In addition to the one-on-one assistance, the Collier County Jail also has self-help programs on its Mobile Kiosks that assist inmates in areas of education, recovery, life skills and faith-based material. Each self-help program completed is documented in a student transcript the inmate can request a copy of at any time. These transcripts can then help them continue their journey on the outside by providing proof of the efforts they made while incarcerated.

WHAT WE DO

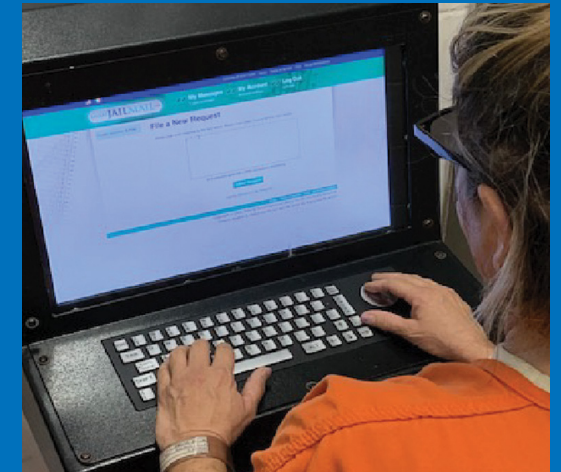

Reintegration Specialists focus on inmates that have a release date within sixty days. They interview the inmate and determine what basic needs are required for the inmate prior to their release. Reintegration Specialists connect inmates with community partners who will provide necessary services. This is an essential step in helping the inmate succeed after release.

Basic needs the Reintegration Specialists provide assistance / referrals with are:

- Finding resources for food and clothing
- Making arrangements for a shelter or housing needs
- Connecting inmates to mental health services
- Assisting with the admissions process for substance use treatment programs
- Assisting with the Treatment Court process
- Providing resources for health insurance and free clinic information
- Connecting inmates with job placement resources
- Scheduling one-on-one trauma counseling
- Providing pregnant females resources and referring them to services
- Obtaining birth certificates
- Obtaining Social Security replacement cards
- Preparing inmates with continuing their education
- Providing inmates NA & AA material

OUR MISSION

To promote public safety and prepare inmates to successfully reenter the community by providing successful reintegration opportunities through community partnerships.

NEED HELP WHILE IN JAIL?

Reintegration Specialists help inmates who ask for help. Getting help is as easy as submitting an inmate request to "Reentry" on the kiosks that are located in each housing area.
